# EGYPT MINING FORUM

Hosted by the Ministry of Petroleum and Mineral Resources and supported by the Egyptian Mineral Resources Authority (EMRA), Egypt Mining Forum 2025 serves as a platform for policymakers, investors, and industry stakeholders to explore how Egypt can cement itself as the next big exploration destination for minerals and metals.

The signing of a reformed Mineral Exploitation Agreement Model last year was a key moment for Egypt’s mining sector, introducing a clear, internationally aligned framework that ensures equitable risk and reward sharing between investors and the government. With key regulatory reforms, a modern mining code, well-developed infrastructure, a highly skilled workforce, and

a government vision to grow the sector’s contribution to 6% of the country’s GDP, Egypt is positioning itself as a competitive and attractive hub for foreign investment.

Under the theme ‘Accelerating Commercial Exploration and Mineral Discoveries,’ the fourth edition of the Forum will focus on unlocking investment opportunities in Egypt and across the Arabian Nubian Shield, addressing geological challenges to access untapped mineral resources in the Eastern Desert, and highlighting the importance of creating an investor friendly environment to attract junior mining companies, the backbone of the industry.
