# UNLOCKING EXPLORATION POTENTIAL

## Shaping the Next Era of Egypt's Mining Economy

Egypt's minerals sector is entering a new era. With reform momentum, increased investor focus, and a renewed push to accelerate early-stage exploration, the country is repositioning itself as a competitive destination for discovery-led growth.

Egypt Mining Forum is the region's leading convening for mining leadership, bringing the ecosystem together to strengthen the foundations of a modern mining economy. By connecting policy direction with capital deployment and execution capability, the forum sets the agenda for how mining advances in Egypt and across the Arabian Nubian Shield. Senior government, regulators, investors, explorers, operators and technical leaders come together to align on what enables progress: investment confidence, security of tenure, competitive licensing frameworks, and a pipeline of high-quality exploration prospects.

Under the theme "Unlocking Egypt and the Arabian Nubian Shield's Exploration Potential," the forum connects global capability with Egypt's underexplored geology, creating practical pathways to progress exploration programmes, partnerships and capital deployment across the minerals value chain.

Across strategic and technical programmes, the forum translates Egypt's mining vision into investor and operator reality, enabling stakeholders to identify opportunities, de-risk decisions, and progress exploration activity at scale.

# GLOBAL MINING AND MINERALS EXHIBITION

Connecting Capability to Opportunity

Egypt Mining Forum's exhibition brings together mining operators, exploration companies, EPCs, OEMs, technology providers and technical consultancies supporting the full exploration-to-production lifecycle.

With decision-makers from Egypt and across the region onsite, the exhibition is designed for companies looking to enter the market, deepen relationships, and win projects across exploration, development, processing, infrastructure and mine services.

## Exhibitor profiles:

- Government, regulators and geological institutions
- Mining companies, developers and explorers
- Investors, finance and advisory
- Exploration, drilling and geology services
- EPC, engineering and project delivery
- Equipment, OEMs and mining technologies
- Processing, metallurgy and plant solutions
- ESG, HSE and sustainability specialists
- Logistics, supply chain and site services

## WHY EXHIBIT

# WHERE INVESTMENT MEETS EXECUTION

### DIRECT MARKET ACCESS

Engage with senior government, regulators, mining companies, explorers and solution partners shaping licensing, project direction and sector priorities in Egypt and across the Arabian Nubian Shield.

### DECISION-LEVEL ENGAGEMENT

Two focused days of high-level meetings and partnership building across the public and private mining ecosystem, from exploration through to development and operations.

### ACTIONABLE MARKET INSIGHT

Access first-hand intelligence on policy direction, sector priorities, upcoming opportunities, and the capability needs required to progress exploration programmes and projects.

# 6%

of GDP by 2030

Egypt has set an ambition to significantly increase mining's contribution to GDP this decade, signalling an accelerated push to build a competitive mining economy.

# 131%

year-on-year revenue growth

# \$446 million

mineral resource development revenue

Reported as of July 2025, alongside ongoing reforms aimed at attracting exploration and strengthening investment competitiveness.

### Sectors represented:

- Exploration & Drilling
- Geoscience & Data
- Equipment, OEMs & Technology
- Processing, Metallurgy & Plant
- EPC & Project Delivery
- ESG, HSE & Sustainability
- Logistics, Supply Chain & Site Services

# CONFERENCES AT A GLANCE

## **Strategic Insight. Technical Depth. One Unified Mining Conference Agenda.**

Egypt Mining Forum delivers a two-track conference experience designed for the full leadership spectrum of the mining economy. From policy direction and investment confidence to exploration execution and operational performance, the Strategic and Technical Conferences run in parallel to give delegates both the macro view and the on-the-ground capability needed to progress mining in Egypt and across the Arabian Nubian Shield.

# STRATEGIC CONFERENCE

As Egypt accelerates its mining modernisation agenda, the Strategic Conference convenes ministers, policymakers, global mining CEOs, investors, and financial institutions to align on what matters most: how exploration is scaled, how investment confidence is strengthened and how projects progress from licence to discovery and development.

Across two days, the programme brings strategic clarity to the reforms and market mechanisms reshaping Egypt's mining sector, while placing Egypt's opportunity within the wider Arabian Nubian Shield and global critical minerals landscape.

**Egypt Mining Forum continues to be the premier platform for uniting the industry.**

We applaud the Egyptian government's investor-friendly initiatives—from advancing commercial pragmatism in partnerships to driving licensing and fiscal-transparency reforms—and recognise that the development of world-class infrastructure, such as that in New Cairo, will be pivotal in attracting the next wave of global investment. At AngloGold Ashanti, we are proud to play our part. Egypt has long shaped the history of gold, and today it has an unparalleled opportunity to define its future.

**Gillian Doran**  
Chief Financial Officer &  
Executive Director

## STRATEGIC OUTCOMES:

- Clear understanding of Egypt's direction and the enabling conditions being prioritised
- Investor-grade insight on licensing models, risk considerations and market competitiveness
- Connectivity across the full leadership ecosystem shaping mining in Egypt and the Arabian Nubian Shield
- Real-world case studies on what it takes to progress from exploration into development and production

## TECHNICAL CONFERENCE

# WHERE GEOSCIENCE AND EXECUTION CAPABILITY MEET

The Technical Conference is the Forum's applied programme for geologists, geophysicists, exploration managers, mining engineers and technical specialists advancing exploration success and mine performance in Egypt and across the Arabian Nubian Shield.

Built around practical learning and peer exchange, the programme focuses on the technical disciplines that strengthen outcomes across the mining lifecycle, from early-stage targeting and subsurface intelligence through to mine development and operations.

## TECHNICAL CATEGORIES

ARABIAN NUBIAN SHIELD GEOLOGY

GEOPHYSICAL METHODS

EXPLORATION TECHNOLOGIES & INNOVATION

ADVANCES IN DRILLING

GEOCHEMISTRY & LAB SAMPLING

EXPLORATION TO MINE DEVELOPMENT

MINE OPERATIONS

NEXT-GEN WORKFORCE

## CALL FOR PAPERS TIMELINE

## TECHNICAL OUTCOMES:

- Sharper technical insight for targeting, evaluation and discovery in Shield terrains
- Practical approaches to data quality, interpretation and integration across disciplines
- Applied learning on progressing projects from exploration through feasibility and development
- Real-world perspectives on mine optimisation, operational performance and responsible practices
- Stronger peer connectivity across technical communities working in comparable geological provinces

# YOUR DELEGATE EXPERIENCE

Egypt Mining Forum is designed for professionals who need clarity on where the opportunity is, how the market is evolving, and who to engage to progress decisions.

With dedicated strategic and technical content, alongside a high-quality exhibition and networking programme, delegates can benchmark the market, build partnerships, and leave with a sharper view of Egypt's mining and exploration trajectory.
