UNLOCKING EXPLORATION POTENTIAL

Shaping the Next Era of Egypt's Mining Economy

Egypt's minerals sector is entering a new era. With reform momentum, increased investor focus, and a renewed push to accelerate early-stage exploration, the country is repositioning itself as a competitive destination for discovery-led growth.

Egypt Mining Forum is the region's leading convening for mining leadership, bringing the ecosystem together to strengthen the foundations of a modern mining economy. By connecting policy direction with capital deployment and execution capability, the forum sets the agenda for how mining advances in Egypt and across the Arabian Nubian Shield. Senior government, regulators, investors, explorers, operators and technical leaders come together to align on what enables progress: investment confidence, security of tenure, competitive licensing frameworks, and a pipeline of high-quality exploration prospects.

Under the theme "Unlocking Egypt and the Arabian Nubian Shield's Exploration Potential," the forum connects global capability with Egypt's underexplored geology, creating practical pathways to progress exploration programmes, partnerships and capital deployment across the minerals value chain.

Across strategic and technical programmes, the forum translates Egypt's mining vision into investor and operator reality, enabling stakeholders to identify opportunities, de-risk decisions, and progress exploration activity at scale.

GLOBAL MINING AND MINERALS EXHIBITION

Connecting Capability to Opportunity

Egypt Mining Forum's exhibition brings together mining operators, exploration companies, EPCs, OEMs, technology providers and technical consultancies supporting the full exploration-to-production lifecycle.

With decision-makers from Egypt and across the region onsite, the exhibition is designed for companies looking to enter the market, deepen relationships, and win projects across exploration, development, processing, infrastructure and mine services.

Exhibitor profiles:

- Government, regulators and geological institutions
- Mining companies, developers and explorers
- Investors, finance and advisory
- Exploration, drilling and geology services
- EPC, engineering and project delivery
- Equipment, OEMs and mining technologies
- Processing, metallurgy and plant solutions
- ESG, HSE and sustainability specialists
- Logistics, supply chain and site services

WHY EXHIBIT

WHERE INVESTMENT MEETS EXECUTION

DIRECT MARKET ACCESS

Engage with senior government, regulators, mining companies, explorers and solution partners shaping licensing, project direction and sector priorities in Egypt and across the Arabian Nubian Shield.

DECISION-LEVEL ENGAGEMENT

Two focused days of high-level meetings and partnership building across the public and private mining ecosystem, from exploration through to development and operations.

ACTIONABLE MARKET INSIGHT

Access first-hand intelligence on policy direction, sector priorities, upcoming opportunities, and the capability needs required to progress exploration programmes and projects.

6%

of GDP by 2030

Egypt has set an ambition to significantly increase mining's contribution to GDP this decade, signalling an accelerated push to build a competitive mining economy.

131%

year-on-year revenue growth

\$446 million

mineral resource development revenue

Reported as of July 2025, alongside ongoing reforms aimed at attracting exploration and strengthening investment competitiveness.

Sectors represented:

- Exploration & Drilling
- Geoscience & Data
- Equipment, OEMs & Technology
- Processing, Metallurgy & Plant
- EPC & Project Delivery
- ESG, HSE & Sustainability
- Logistics, Supply Chain & Site Services

CONFERENCES AT A GLANCE

Strategic Insight. Technical Depth. One Unified Mining Conference Agenda.

Egypt Mining Forum delivers a two-track conference experience designed for the full leadership spectrum of the mining economy. From policy direction and investment confidence to exploration execution and operational performance, the Strategic and Technical Conferences run in parallel to give delegates both the macro view and the on-the-ground capability needed to progress mining in Egypt and across the Arabian Nubian Shield.

STRATEGIC CONFERENCE

Egypt's mining story is one of the world's oldest, dating back to predynastic times, with active mining beginning around 3000 BC. Today, that history is entering a new chapter as Egypt works to unlock its mineral wealth and increase mining's contribution to 5% of national GDP.

Positioned within the Arabian-Nubian Shield, a mineral-rich belt across northeast Africa and the Arabian Peninsula, Egypt holds gold, copper, phosphate, iron ore, kaolin, silica sand, sulphur and critical minerals. With large areas still underexplored, the country's rich geology presents significant potential for new mineral discoveries, supported by growing efforts to expand geological data and de-risk exploration.

Egypt's infrastructure and energy base provide a strong foundation for mining operations, supporting an efficient and accessible operating environment. Direct access to the Mediterranean and Red Sea, the Suez Canal, extensive road networks, major economic zones, and reliable, clean and affordable energy reinforce the country's position as a competitive jurisdiction for mining and downstream industries.

Alongside these advantages, reforms to licensing, fiscal terms, fees, multi-commodity permits, one-stop-shop services and institutional capacity are establishing a more modern mining framework, giving investors clearer structures

Building on this progress, the Strategic Conference brings together policymakers, investors, mining companies, exploration experts and industry leaders to examine the new business and project opportunities emerging across Egypt's mining sector and the wider Arabian-Nubian Shield, with participants gaining insights into:

- Egypt's new mining reforms and investment framework
- Arabian-Nubian Shield geology and mineral potential
- Critical minerals, base metals and Egypt's role in global value chains
- Downstream mineral processing and industrial development
- New exploration opportunities for junior mining companies
- Moving from mineral discovery to mine development

Egypt Mining Forum continues to be the premier platform for uniting the industry.

We applaud the Egyptian government's investor-friendly initiatives—from advancing commercial pragmatism in partnerships to driving licensing and fiscal-transparency reforms—and recognise that the development of world-class infrastructure, such as that in New Cairo, will be pivotal in attracting the next wave of global investment. At AngloGold Ashanti, we are proud to play our part. Egypt has long shaped the history of gold, and today it has an unparalleled opportunity to define its future.

Gillian Doran
Chief Financial Officer &
Executive Director

STRATEGIC OUTCOMES:

- Understand Egypt's new mining investment framework and how reforms to licensing, fiscal terms, fees and investor services are creating a more investor-friendly sector.
- Identify new exploration opportunities across Egypt and the wider Arabian-Nubian Shield, including areas of interest for junior mining companies.
- Evaluate Egypt's role in global mineral value chains, across precious metals, critical minerals and base metals.
- Build partnerships with policymakers, investors, mining companies and technical experts to support investment, exploration and project development.

2026 STRATEGIC SPEAKERS AND THOUGHT LEADERS

HE Eng Karim Badawi
Minister of Petroleum
and Mineral Resources
Arab Republic of Egypt

HE Bandar Alkhorayef
Minister of Industry and
Mineral Resources
Kingdom of Saudi Arabia

HE Dr. Saleh Al-Kharabsheh
Minister of Energy
and Mineral Resources
Hashemite Kingdom of
Jordan

**Hon. Emmanuel
Armah-Kofi Bua**
Minister for Lands &

TECHNICAL CONFERENCE

WHERE GEOSCIENCE AND EXECUTION CAPABILITY MEET

The Technical Conference is the Forum's applied programme for geologists, geophysicists, exploration managers, mining engineers and technical specialists advancing exploration success and mine performance in Egypt and across the Arabian Nubian Shield.

Built around practical learning and peer exchange, the programme focuses on the technical disciplines that strengthen outcomes across the mining lifecycle, from early-stage targeting and subsurface intelligence through to mine development and operations.

2026 Technical Committee Members

Lamia Mohamed Anass
General Manager
Technical Office
Mineral Resources and Mining Industries Authority

Duran Archery
General Manager
Sukari Gold Mines

Antony Benham
Regional Director, UK and Saudi Arabia

Sessions Preview

Monday 28 September 2026

SESSION 1 13:30 - 14:40

Geochemistry, Sampling & Analytical Techniques for Mineral Exploration

SESSION 2 14:40 - 15:50

Accelerating Mineral Discovery Through AI & Advanced Exploration Technologies

SESSION 3 15:50 - 17:00

Resource Recovery, Processing & Sustainable Mining

SESSION 4 17:00 - 18:10

Geological Frameworks & Gold Systems of the Arabian–Nubian Shield

Tuesday 29 September 2026

SESSION 5 10:00 - 11:10

Planning Effective Mineral Exploration Campaigns

SESSION 6 11:10 - 12:20

Innovative Approaches to Mineral Targeting & Geoscience Exploration

SESSION 7 12:20 - 13:30

Critical Mineral Systems & Metallogenesis in the Arabian–Nubian Shield

SESSION 8 14:00 - 15:10

Developing Commercial Mines from Exploration to Production

SESSION 9 15:10 - 16:20

Operational Excellence, Safety and Productivity in Mining

SESSION 10 16:20 - 17:30

Building the Future Mining Workforce

YOUR DELEGATE EXPERIENCE

Egypt Mining Forum is designed for professionals who need clarity on where the opportunity is, how the market is evolving, and who to engage to progress decisions.

With dedicated strategic and technical content, alongside a high-quality exhibition and networking programme, delegates can benchmark the market, build partnerships, and leave with a sharper view of Egypt's mining and exploration trajectory.
